20K+ FOLLOWERS

Buckle up for a wild ride with American Jetset, the electrifying band storming out of the East Coast on a mission to unite misfits worldwide! Their explosive fusion of sleaze rock shock pop is a beacon in the darkness of the post-Sunset Strip Era.

Drawing inspiration from glam metal legends like Mötley Crüe and Poison, their music defies convention. Starting with their debut EP, "Live Love Die on Main," in 2018, they've commanded the underground scene. Their debut LP, "Saloon Rock Whiskey Pop," launched them into the mainstream, followed by "Cat's Got Your Tongue," solidifying their status as American rock royalty.

Renowned for their high-energy performances, they've built a global following, embracing society's rebels. Despite pandemic setbacks, they roared back in 2022 with a new lineup, headlining iconic venues like the Whisky A Go Go alongside Stephen Pearcy. With a relentless touring schedule, including appearances at M3 Rock Festival, they've proven their prowess, sharing stages with legends like Winger and LA Guns. As they closed out 2023 with a New Year's Eve extravaganza, American Jetset reaffirmed their status as future rock legends.

In March 2024, Jetset inked a deal and is now part of the Golden Robot Records family. Get ready for takeoff with American Jetset this summer when the band releases it's 3rd full-length LP Devils & Angels. The tour starts 5/3, spans both coasts, and the RnR will never stop!

AMERICAN JETSET HAS SUPPORTED:
